### Adelman Named Young Engineer of the Year

Indianapolis, Ind. (June 16, 2014) – The Indiana Society of Professional Engineers (ISPE) presented W. Brad Adelman, PE, its 2014 Young Engineer of the Year award in recognition of his outstanding contributions to the engineering profession and his community.

The award is awarded based upon the engineer's professional society activities, positions held, and achievements, along with that person's other technical society activities, positions held, and achievements. This award also considers the engineer's community and humanitarian activities, professional competencies, and achievements. In addition, the engineer's engineering career achievements are used to determine which person is selected for the award.

Brad received this award in honor of his engineering and supervisory positions with Vectren Energy since 2006, along with his service to ISPE as one of its chapter presidents since 2011. He also holds a BS and MBA from the University of Southern Indiana, where he received several scholastic honors.

Michael Fink, PE, a past-President of ISPE, presented the award to Brad on behalf of ISPE during its 2014 annual conference on June 13, 2014. ISPE President Scott S. Haraburda, PhD, PE, commented that Brad had, "made continual contributions to both the Society and to his community throughout the last several years, making him a worthy selection as this year's ISPE Young Engineer of the Year."

The National Society of Professional Engineers (NSPE) is the national society of licensed professional engineers from all disciplines that promotes the ethical and competent practice of engineering, advocates licensure, and enhances the image and well-being of its members. Founded in 1934, NSPE serves more than 35,000 members and the public through 53 state and territorial societies and more than 400 chapters. The ISPE is the state society that supports Indiana.
